

# Setup Instructions for Bria for iPhone

Step 1: Download and install Bria for iPhone from the App Store

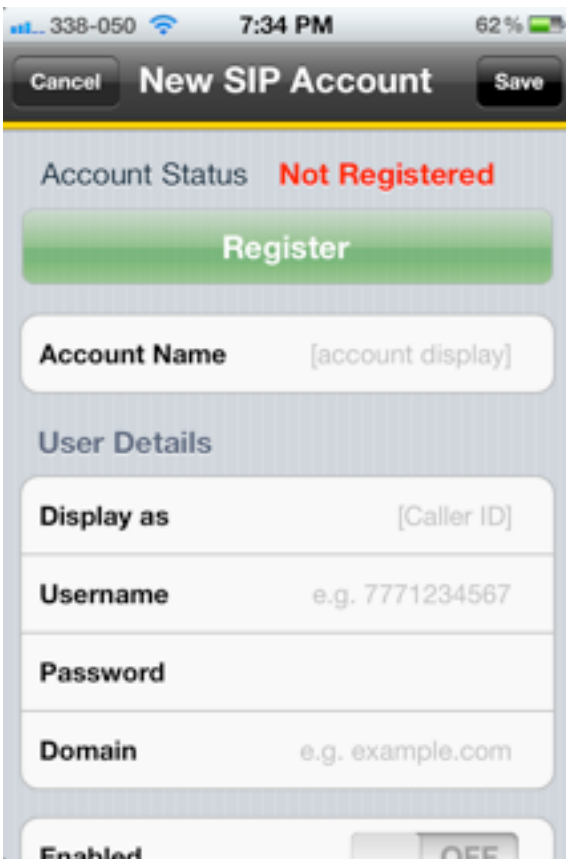

Step 2: When you open the app for the first time, you will be prompted to set up a new SIP account.

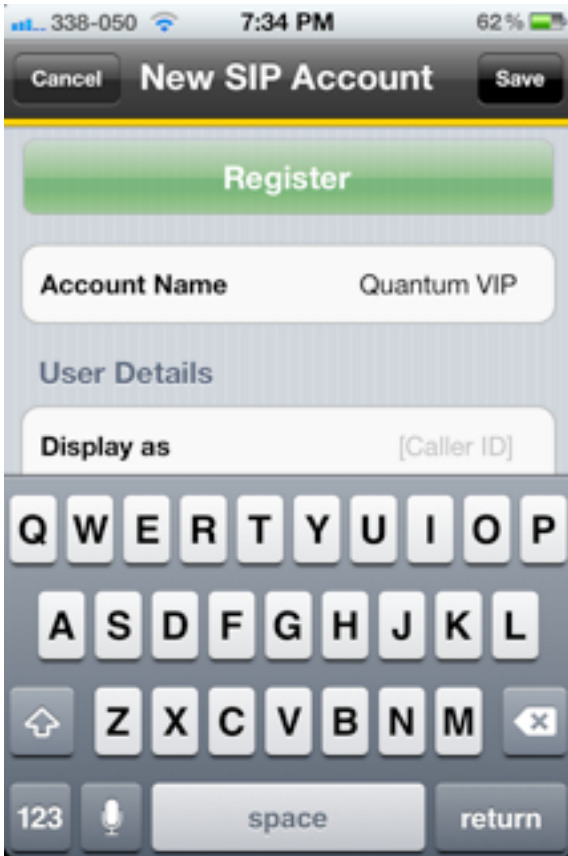

Step 3: You will be given the choice of setting up a user defined SIP account, or select from a list of pre-defined VoIP Service Providers.

Select SIP-Making Calls under User-defined Accounts

Step 4: You will be presented with a screen to enter the details of your account.

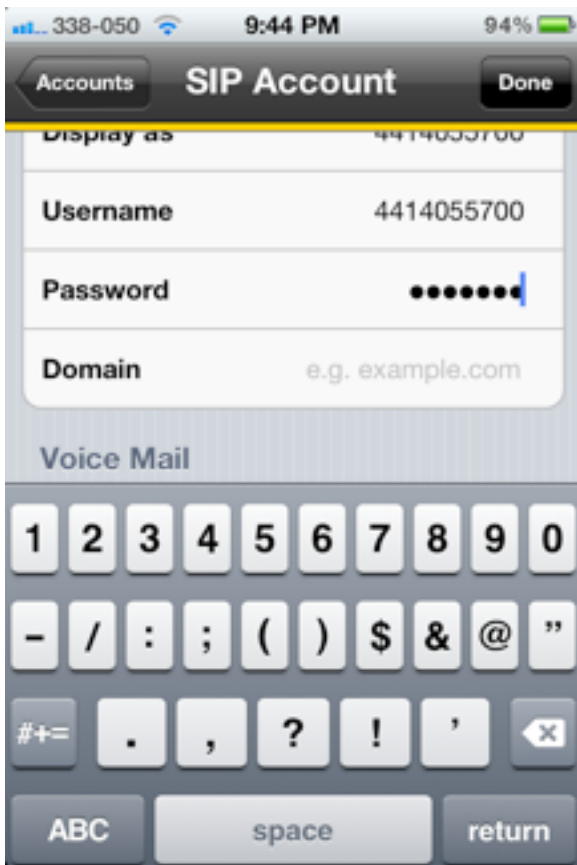

Step 5: Under Account Name, enter Quantum VIP

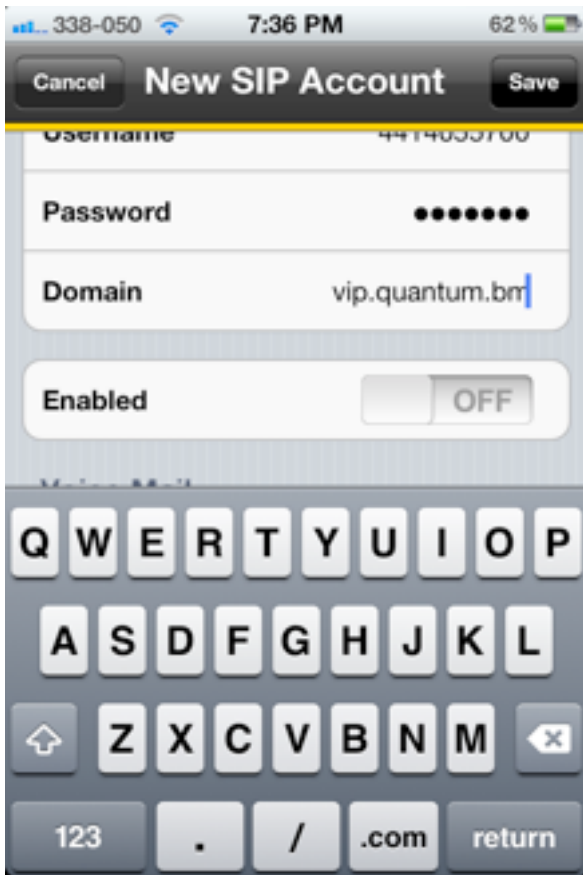

Step 6: For Display As, enter your 10 Digit SIP number. In this example we use 4414055700

Step 7: For Username, enter your 10 digit SIP number again. In this example, we are again using 4414055700

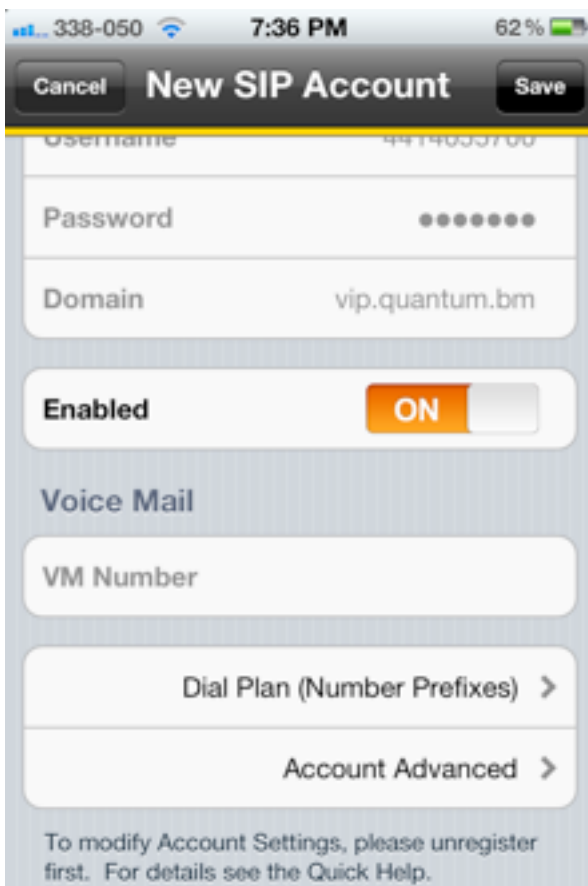

Step 8: In the Password field, enter the password assigned to your SIP account

Step 9: In the Domain field, enter the name of the quantum SIP server. The domain name is

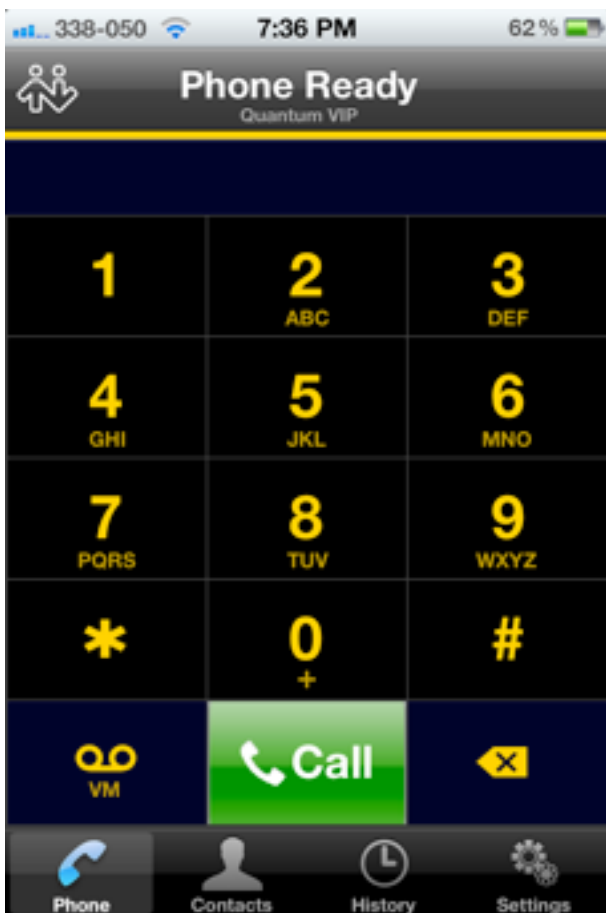

vip.quantum.bm (all lower case)

Step 10: Slide the Enabled button to ON and the application will log on to the Quantum VIP server.

Step 11: You are now ready to make and receive Bermuda calls on your Quantum VIP service

Step 12: Click the phone icon or the contacts icon and start calling!
